

"To create an environment that fosters collegiality, collaboration, networking and sharing among those engaged in health professional simulation-based education and research."

Victorian Simulation Alliance Inc.

# Your Simulation Community

The Victorian Simulation Alliance (VSA) has supported the ongoing development and implementation of simulation within health professional education since 2010. The VSA is committed to providing an active and supported 'community of practice' with a key strategic focus on People, Professional Practice, Profile and Sustainability.

**The Association provides members with a "community of practice" and a platform for:**

- valuable networking opportunities
- ongoing professional development, education and training
- fostering scholarship and innovation
- information dissemination and sharing
- linking metropolitan, rural and regional areas
- access to expert advice, information & resources
- creating a cohesive voice and common language
- best-practice identification and sharing
- creating opportunities for consultation, collaboration & sharing expertise
- informing and promoting standard and policy setting
- linking nationally and internationally

The VSA is relevant to health professionals involved in the development or delivery of education, professional development or training through the application of simulation methods.

**For further information on the VSA, or to apply for Individual or Corporate membership visit our website or contact the VSA Executive Officer via email: [nina.klein@holmesglen.edu.au](mailto:nina.klein@holmesglen.edu.au)**
